

# St. Emydius School Newsletter

Issue Number 35

May 24, 2010

Dear Parents,

It is important to consider enrolling your child/ren in a summer program—not a program that may be too rigorous, but one that might challenge your child and/or keep him/her active and the brain working.

Parents are requested to make a sincere effort to have your children leave their cell phones at home each day. Also, please be aware of your child's computer use and check everything your child accesses.

Even though we are moving very rapidly to the end of another school year, it is very important that we, parents and teachers, keep the momentum going, allowing our students to be fully motivated to the end of the year. Please continue to monitor your child's class work and homework in all the ways you find may work. I am aware of the constant challenges which are faced by parents.

Thank you for your support of St. Emydius School.

Sincerely,

Miss Socorro Mendoza  
Principal

**MATH****@ HOME****Super Sums**

Use only the 2s, 3s, 4s, 5s, 6s and aces (1's) from a deck of cards. Each player writes the numbers 1-12 on a piece of paper. Then each player picks two cards and adds up the numbers on them. The player can mark off that sum on the paper or cross off the two numbers on the cards. Who will be first to cross off all 12 numbers on the list?
